RE: Planned Troup Substation Outage

Dear Consumer Member,

Cherokee County Electric Cooperative Association (CCECA) strives to deliver reliable, low cost power to rural residents and businesses of East Texas. In order to improve upon this service, CCECA is in the process of upgrading our Troup Substation. In general, Troup Substation's service territory is from Omen south, Turnertown west, New Summerfield north, and Highway 69 east.

Maintaining a safe work environment is of the utmost importance to CCECA. Therefore, CCECA will be shutting off the power in the Troup Substation for a "temporary outage" on Tuesday, March 6, 2012 in order to conduct several dangerous tasks. This temporary outage is planned from **approximately** 8:00 AM to 4:00 PM. Should this outage not be conducted due to unforeseen circumstances on the above scheduled date, it will be rescheduled as soon as feasibly possible and without additional notification. There will be subsequent temporary outages to follow during the course of this project. Construction should be completed in April.

Please accept our apologies in advance for any inconveniences this temporary outage may cause.

Should you have any further questions, please do not hesitate to call our office at 903-683-2248 or 903566-5028.

Sincerely,

CHEROKEE COUNTY ELECTRIC COOPERATIVE ASSOCIATION

Greg Jones General
